Traffic: Construction work on the road "Unter den Eichen"

19 February to the end of March // Pedestrians change sides of the road, cyclists on the carriageway

From next Monday, 19 February, paving work will be carried out on the road "Unter den Eichen", between the Burloer Weg roundabout and the junction with "Buchenallee", until the end of March.

For this reason, pedestrian traffic will be diverted to the other side of the road for a distance of around 200 metres. Cyclists will be guided along the carriageway with the flow of traffic in the area of the roadworks. For this reason, a 30 km/h speed limit will be in place for the duration of the works.

During the Easter holidays, two days of work will then be carried out on the crossing aid.
