Traffic

Traffic: Friedrich-Wilhelm-Strasse briefly becomes a "one-way street"

Access only possible from the ring road from 19-23 September

In the course of the construction work on Ostwall, it is necessary to close Friedrich-Wilhelm-Strasse on one side. This means that the access road will only be passable from the Stadtring from September 19-23. The access road is popular with many customers who drive to the local supermarkets there.

During this period, outgoing traffic will be diverted via Schwartzstraße.
