Traffic

Traffic: Full closure of Barloer Weg

From 12 September // expected to last two weeks // Diversion in place

From 12 September, Barloer Weg, from the Sauerbruchstr. / Klemens-Honsel-Weg roundabout, is expected to be closed for a fortnight. The reason for this is road rehabilitation work, which will be carried out under full closure for work safety reasons. Traffic coming from the north will be routed via the street "Im Ellerbrock", pedestrians and cyclists can continue to pass the footpath/cycleway.
