Traffic

Traffic: Part of Blücherstraße closed for one day

Thursday, 18 January // Note diversions

Next Thursday, 18 January, part of Blücherstraße, between the junctions with Münsterstraße and Reygersstraße, will be closed to traffic. The closure is necessary because a large construction crane will be dismantled on this day.

Cyclists and pedestrians can still pass through the roadworks area.

Traffic travelling into the city will be routed via the Rheder Straße / Viktoriastraße route; traffic travelling out of the city will be routed via the Münsterstraße / Moltkestraße diversion. The city bus will follow the above routes.

To ensure that regular bus services can use the diversion routes, stopping restrictions will be put in place along the diversion routes, which will only apply on Thursday, 18 January.

Furthermore, it will not be possible to exit onto Münsterstraße from Moltkestraße for the duration of the closure due to the diversion route.

Attention construction site
