Tree maintenance work on Mühlenweg

Work taking place from 14 to 16 September // One side of the carriageway will be closed at times // Cyclists will be directed onto the carriageway, with a speed limit of 30

Tree maintenance work will take place on Mühlenweg from 14 to 16 September 2026. One side of the carriageway will be closed at short notice in the relevant work area. The footpath will also be closed at the point where the work is taking place.

The section affected runs from house number 73 to just before the junction with Petersfeldstraße. An aerial work platform is being used for tree maintenance, which will occupy part of the carriageway. Road closures will be in place wherever work is currently taking place.

Pedestrians will be given advance warning of the pavement closure. Cyclists will be directed onto the carriageway within the work zone. A 30 km/h speed limit applies there whilst the work is in progress.
