

## Online services

### Working together digitally for Bocholt

Digitalisation is making Bocholt an even more attractive place to live and work. As a modern and transparent local authority, we want to make your day-to-day life as easy as possible - round the clock, directly and without any hassle.

You can find out which projects are currently being implemented on our Digital Strategy page.

## Overview: Our online services

Digitalisation is making Bocholt an even more attractive place to live and work. As a modern and transparent local authority, we want to make your day-to-day life as easy as possible - round the clock, directly and hassle-free.

Our guiding principle for the coming years is therefore: **"Your smartphone is the key to local government!"**

For the town of Bocholt, digitalisation means providing all citizens with digital administrative services that can be accessed at any time and from any location.

The aim is to make administrative processes innovative, citizen-friendly and transparent.

### Digital together... that's Bocholt!

To save residents the trouble of visiting the council offices, the City of Bocholt will be expanding its online services - step by step - as part of its digitalisation strategy.

Any questions or suggestions? Please get in touch at ozg(at)bocholt(dot)de.
