

Magical, jazzy soundscapes made of wood and stone

OREKA TX ON 24 OCTOBER AT THE LERNWERK

© Oreka TX 4 (c) TxalapART productions

The Münsterland Festival part 13 is all about Spain: from 4 October to 8 November 2025, Münsterland invites you to numerous events at the most beautiful and interesting locations in the region. Artists from Spain will take visitors on a cultural journey of discovery across the Iberian Peninsula at concerts, exhibitions, excursions and more.

Oreka TX breathes new life into the txalaparta. The percussion instrument consists of long sound boards that rest on trestles. The speciality: Oreka TX experiments with bamboo, stone, metal and even ice. Each material brings a new narrative to life, each performance opens up different acoustic spaces - their concerts are masterpieces of wood, stone and animated power.

Together with their ensemble, Harkaitz Martínez de San Vicente and Mikel Ugarte transform the Txalaparta into an instrument of dialogue: contemporary composition and regional sound language meet a global perspective. At the Münsterland Festival, Oreka TX will create a musical portrait of Basque culture in the LernWerk - raw, honest and deeply rooted.

A guided tour of the LernWerk at 6.30 pm can be booked for an extra charge.

Tickets

Tickets can be purchased [online](#) or on site at the tourist information centre (Nordstraße 14, Tel. 02871/5044, [info\(at\)tourist-info-bocholt\(dot\)de](mailto:info@tourist-info-bocholt.de)).
