

Caring Together

Care affects many people - either now or in the future.

Through the "Gemeinsam Pflege" project, the city of Bocholt is developing new ways to support people in need of care, family carers and volunteers. The aim is to maintain independence, social inclusion and quality of life for as long as possible, and to work together to further develop local care provision.

The pilot project is funded by the [Ministry of Labour, Health and Social Affairs of the State of North Rhine-Westphalia \(MAGS\)](#), the state associations of care insurance funds in North Rhine-Westphalia and the Association of Private Health Insurance (Verband der Privaten Krankenversicherung e.V.), and is scientifically supported by [empirica ag](#). The findings are also intended to serve as a model for other local authorities.

On this website, you will find information about the project, the individual services on offer, upcoming events, and ways to find out more or get involved yourself.

Our range of services continues to grow

The initiatives under the "Gemeinsam Pflege" pilot project **are currently still being developed**. As a result, details regarding dates, contact persons or how to take part are not yet finalised for some of these initiatives.

This website is being **continuously updated and expanded**. So please do check back regularly - you'll gradually find all the new services and dates listed here.
